

## Welcome to Ebenezer's Southside Child Care Center!

We're a hidden gem tucked away on the beautiful and peaceful School Sisters of St. Francis Campus. Here your children will spend their days engaged in fun and exciting educational activities, as well as enjoying our great outdoor play spaces and walking nature trails.

Our families represent a diverse blend of local residents and neighborhood employers. Many of our staff are bilingual to help facilitate better communication. We are genuinely pleased to be part of this wonderful community helping families raise healthy, well-cared for children, by providing quality child care while parents are working!

## The Ebenezer Advantage

Since 1968, Ebenezer Child Care Centers has been providing working families with quality early care and education that meets the important physical, emotional, social, and cognitive needs of children of all ages. Our well-educated and nurturing staff has been trained to embrace multiculturalism, and they work hard to incorporate it into everything we do. As a result, we find children thrive while in our care!

## Infant Program

In addition to loving and nurturing your little one, our educated caregivers:

- ♥ Read, sing and interact with them to promote language and social development
- ♥ Provide developmentally appropriate toys such as rattles, busy boxes and balls to develop their large and small muscles
- ♥ Teach textures and touch with a variety of sensory materials
- ♥ Develop creativity through the daily use of paint, crayons, playdough, and other materials.

## Toddler/Two Program

Your curious toddler or two-year old needs a safe and encouraging environment in which to explore. That is why our conscientious caregivers offer a structured, yet flexible, daily schedule which includes:

- ♥ Guided learning activities such as stacking cups; creative art experiences with crayons, chalk, and paint; sensory and science play; and fill and dump buckets to increase their fundamental skills
- ♥ Reading, singing and group time to promote language and social development
- ♥ The development of self-help skills, such as eating, toileting and dressing, so children gain confidence and independence.

In addition, we incorporate a Virtues Program into everything we do to encourage appropriate behaviors and help acknowledge goodness in the world.

## Preschool Program

The goal of our Preschool Program is to ensure that your child is prepared for kindergarten. We want to make this amazing time of discovery interesting and enjoyable for your child. In our Preschool Program, children:

- ♥ Participate in small group activities, such as pegboards, puzzles, painting, coloring, cutting, and writing, that encourage cooperation and coordination
- ♥ Read stories to increase their vocabulary, comprehension, letter recognition, and letter sounds
- ♥ Sing songs to promote language and social development
- ♥ Engage in self-directed, yet closely supervised play to encourage exploration and creativity
- ♥ Develop large muscle skills and coordination through indoor and outdoor activities.

Please note: This center also has a 3K and 4K Head Start program in cooperation with local agencies. Ask for eligibility requirements.

## School-Age Program

The goal of our Before- and After-School, Vacation Day and Summer Blast Programs is to take the concepts your child is learning at school and reinforce them with fun and engaging activities. In our School-Age Program, children may:

- ♥ Learn about mathematics through cooking, manipulatives and card games
- ♥ Expand their creativity through art projects and woodworking
- ♥ Explore the world around them through interesting science experiments and field trips
- ♥ Expand their social skills through team-building activities that reinforce positive virtues such as cooperation, negotiation and problem-solving.

Our teachers will also work one-on-one with children to help them complete their homework and gain the independence and confidence they need to become great young adolescents.

Please note: Before- and after-school transportation may be possible through MPS.
